PROFESSIONAL SUMMARY

A graduate with a National Diploma in ICT: Applications Development and an Advanced Diploma in ICT: Multimedia Development, both from CPUT. Currently working as a Digital Associate at CAPACITI where a 17-course Professional Development programme was completed covering professional communication, active listening, negotiation, conflict resolution, and workplace effectiveness. Has over a year of experience interacting with clients and stakeholders in a professional environment, communicating complex information clearly, handling objections professionally, and following up on outstanding matters until they are resolved. A confident, energetic, and people-oriented individual who is comfortable with both written and verbal communication and who thrives in a fast-paced, target-driven setting.

SKILLS

Communication: Verbal and Written Communication, Active Listening, Objection Handling, Professional Telephone Manner, Client-Facing Communication

Sales and Client Skills: Needs Analysis, Consultative Approach, Persuasion, Building Rapport, Explaining Processes Clearly to Clients

Analytical: Analytical Thinking, Attention to Detail, Gathering and Verifying Information, Problem Solving, Intuitive Decision Making

Administration: Database Updating, Document Collection, Accurate Record Keeping, Google Docs, Microsoft Office 365 (Word, Excel, Outlook)

Personal: Energetic, Reliable, Resilient, Self-Motivated, Growth Mindset, Professional Conduct

PROFESSIONAL EXPERIENCE

Digital Associate, Web Development | CAPACITI *Jul 2026 - Present*

- Completed a 17-course Professional Development learning path covering professional communication, email writing, negotiation and conflict resolution, active listening, and workplace effectiveness — all directly applicable to a client-facing sales role.
- Communicating daily with team members, mentors, and stakeholders in a professional environment, adapting tone and approach depending on the audience.
- Managing multiple tasks and deadlines simultaneously in a structured programme environment, demonstrating reliability and follow-through.
- Using Google Docs, Microsoft Office, and digital tools daily to maintain records, update documentation, and communicate professionally in writing.

QA Tester Intern (WIL) | Plum Systems *Jan 2025 - Dec 2025*

- Acted as a point of contact between the development team and business stakeholders, gathering information, explaining technical findings in plain language, and ensuring issues were resolved to everyone's satisfaction.
- Handled complex queries and escalations that required careful listening, clear communication, and a calm, professional approach under pressure.
- Updated and maintained accurate records in the team ticketing system, verifying that all information was complete and correct before closing each case.
- Gathered detailed information from users to assess and diagnose technical issues — a process that required active listening, the right questions, and careful verification before proceeding.
- Consistently followed up on outstanding matters without being prompted, demonstrating accountability and the drive to see things through to resolution.
- Participated in an environment that required meeting daily targets, managing a queue of cases, and maintaining quality output under time pressure.

Clients supported: API Properties, Office Place, CPUT Library, FG Perfumes.
